

Students Will Choose President Today

A.S.U.S. Election Winners Announced

Skelton, Roberts, Malcolm On New Executive

After a gruelling three hour count of the ballots, cast on Monday and Tuesday, the final results of the elections of the Arts and Science Undergraduate Society Executive, have been released.

Spence Skelton, a third year Arts student, has been elected to the post of president of the ASUS, by a slight margin. Reni Roberts and Tram Malcolom were elected first and second vice-presidents, respectively; Ralph Young, treasurer; Betsy Alexander, Corresponding Secretary; Zoe Southam, Recording Secretary, and Dave Ashworth, athletics representative.

The following are the results released by the ASUS yesterday: President—Spence Skelton, 174; Earl Kruger, 150; Cye Rosen, 150; Gordon Stephen, 101. First Vice-President—Reni Roberts, 112; Ruth

Bruck, 105; Marilyn Fisher, 100; Patricia Vos, 85; Lorraine Lefrancois, 81; Wellner O'Connell, 72. Second Vice-President—Tram Malcolom, 291; Marvin Gameroff, 234. Treasurer—Ralph Young, 204; Jack Greenstein, 140; Roy Amaron, 117; Paul Hersh, 59.

Corresponding Secretary—Betsy Alexander, 262; Patsy Flanagan, 239. Recording Secretary—Zoe Southam, 223; Ann Drummond, 213. Athletics Representative—David Ashworth, 250; Roy Roncarelli, 175. Approximately 31.5 percent of the students in Arts and Science voted in this past election. The names of all Fine Arts students, had been omitted from the lists on Monday, thus requiring a postponement of the ballot counting, until these students had cast their votes on Tuesday.

Spence Skelton
... ASUS PRESIDENT

Worthy Students Receive Awards At A&S Banquet

Winners of the Arts and Science Undergraduate Society were announced at the annual ASUS Awards Banquet in the LaSalle Hotel last night.

Guests at the occasion included Dr. and Mrs. N. J. Berrill, Dean and Mrs. H. N. Fieldhouse, and Dr. C. D. Solin.

Five winners of "A" Awards, 11 of "B" and 20 of "C" were announced.

Winners of "A" Awards Keith Drummond, Nicholas Vlahos, Dorcen Fairman, Roy Amaron, and Alfred Powis, who received a special award.

"B" award winners were Letitia Artola, Gordon Empey, Paul Hersh, Gregory Friend, Tram Malcolom, Sylvia Rodney, Archie Miller, Avrum Cohen, Harvey Crestohl and Michael Awada. A special award was received by Arthur Smith.

"C" Award winners were Ruth Bruck, George Cowley, Heather Douglas-Murray, Alison Farmer, Neil Gillman, Josephine Hanlon, Kathleen Houghton, Chloe Lafond, Joann Marble, Stora McCall, David McTavish, Elizabeth Molson, Jean Montgomery, Helen Panopalis, Michael Peers, James Prentice, Edward Roncarelli, Marjory Root, Harriet Wickenden, and Arthur Zahalsky.

Forge to Go On Sale On Thursday

The 1951 edition of Forge, the McGill student literary magazine, will go on sale Thursday, March 8. This year prizes have been awarded for the best contribution to the magazine. The winners of the twenty-five dollar prizes for the best poetry and prose compositions are Chuck Taylor, whose poem is entitled "If I Could Sing", and John Waterhouse, whose story is called "The Hollow Men". Both students are in third year Arts.

The editorial board announced that it was "highly satisfied" with this year's "Forge", believing that the readers will find "both the stories and poems to be of a very high calibre". As the number of copies is limited, the board urges students to buy their copies as early as possible. Booths will be set up in the Arts Building, the Engineering Building, and the Union. The price of the magazine is 25 cents per copy.

Deadline for Grad Contest Extended

May 15 is to be the extended deadline for entries to the Graduate Society letter contest, D. Lorne Gales, general secretary, told The Daily last night. Prizes of twenty-five, ten and five dollars are being offered for the "best men's and co-ed's letters, of up to 400 words in length, on 'Why I Intend to Join the McGill Graduate Society'." Letters may be addressed to the general secretary, Graduate Society, 3574 University street. Students in all years eligible and additional information on the contest or the Society may be obtained at that address, Mr. Gales stated.

Referendum Today

After trying in vain to get a Student's Society opinion on whether or not the elected representative to the Athletics Board should be a member of the S.E.C. It has been announced that a referendum of students on this topic will be held today. This referendum will be in conjunction with the elections.

The referendum reads as follows: "Do you as a member of the Students' Society of McGill University, approve or disapprove of the following amendment to the Constitution of the Society."

That Sub-sections (e) and (f) of Section (1) of Article VI—Students' Executive Council be relettered (f) and (g) respectively, and that a new Sub-section (e) be added to read: "The elected Representative to the Athletics Board." That section (2) of Article VI which now reads: "Those member, Sectional, sub-sections a, b, c, d, shall serve for the fiscal year following their election; in Section 1, sub-section (e) (f) they shall serve for the calendar year following their election." Shall be amended to read: "Those members, Section 1, sub-sections a, b, c, d, e, shall serve for the fiscal year following their election; in Section 1 sub-sections, f, g, they shall serve for the calendar year following their election."

McGill I.S.S. Announces Tentative Summer Seminar

Fair certainty that Canadian International Student Service will sponsor a summer seminar attended by European and Canadian students again this year was expressed in a statement by the McGill ISS Committee last night.

Temperature for February Found Very Fluctuating

"Small wonder there was an influenza epidemic," said Professor H. Kenneth Hare in his report on the weather for the month of February. It was the story that has become so familiar in Montreal in recent years; snow, rain, thaw one day and freezing cold the next. There was a lack of sunshine although the temperatures were above the 77 year mean value.

During the days from the 8th to the 11th there was a severe cold spell; with a low of -18.4 degrees recorded on the 10th. Then came the thaw. On three of the days between the 18th and the 27th the temperature failed to go below freezing point. The mean temperature for the month was 20.1 degrees, four and one-half degrees above normal, and yet Dr. Hare added that not since the early 1940's have temperatures as low as -18 degrees been recorded in Montreal.

There was a little more rain than normal and a little less snow. The sun was scarce, although there were thirteen days of thaw. The McGill Observatory reports that this has been one of the most sunless winters in its history.

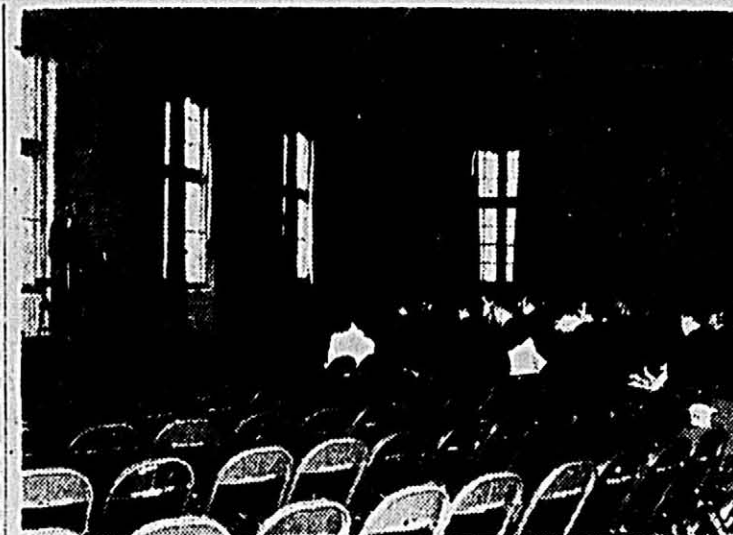

World News Report

As Peace Talks Stall Russia Does It Again

Sharp clashes occurred in the Big Four deputies talks in Paris today, as Russia's Andre Gromyko made a violent 90 minute speech which violated the Kremlin's previous stipulation that this conference should not go into the interpretation of basic issues. One western representative summed up the feeling toward Russia's familiar tactics in the remark "here we go again." He referred to previous East-West conferences which have bogged down in repetitious statements of policy.

In Korea the United States 2nd Division ploughed through a severe blizzard for more than a mile in pursuit of casualty-ridden Communists retreating into the mountains. General Matthew Ridgway reported that the U.S. 7th Division was in possession of the communication centre of Changpyong. Canada's Princess Patricia were reported to have attacked Reds four miles east of Yongdu, which was captured by the American 1st cavalry tank-infantry team. British, Australian and New Zealand troops aided the Patricia in the battle through heavy snow.

In Ottawa it was revealed that the government has turned down a request to allow the provinces to collect an indirect sales tax of three percent. Premier McNair of New Brunswick said he felt that the tax would not meet the needs of the provinces but would only restrict them, as the consumers or purchasers tax in some provinces, including New Brunswick and Quebec already exceeds 3 per cent.

A SEA OF EMPTY CHAIRS greeted the six candidates for three of the top campus positions yesterday at an Election Rally in the Union Ballroom. The rally was attended by approximately sixty people.

Pilon To Be NFCUS Secretary-Treasurer

By FRANCES HOLLAND

The appointment of M. J. Yves Pilon as Secretary-Treasurer of the National Federation of Canadian University Students has just been announced.

Mr. Pilon, formerly Assistant Bilingual Secretary of the Ottawa Civil Service Association, has had an outstanding career and possesses excellent qualifications for the job; as he has had an opportunity to learn the details of running organizations which will be invaluable to NFCUS.

He graduated from Ottawa University in 1945, and then attended Osgoode Hall in Toronto, being articled in Toronto until 1947. At the University of Ottawa he held many Campus positions, for he was President of both the Debating Association and the Villeneuve League. He was also on the editorial staff of "La Rotonde," and secretary of the Student's Council. While at Osgoode Hall he was French-speaking representative on the Osgoode Hall Club Council.

He has served with the Departments of National Defence, Trade and Commerce, and Labour; and has worked as a script-writer and announcer with Station CKCH in Hull.

NFCUS has also announced that the first edition of the NFCUS Yearbook will soon be published and distributed to every University in Canada. It has been planned that each year some Canadian University will undertake the publication of this yearbook. This first edition of the Yearbook has been produced by Bishop's University, and includes articles and pictures of wide interest to University students across Canada.

It will also contain history of NFCUS, showing its efforts through the years to obtain greater co-operation and co-relation among Canadian Universities; and will cover the activities of every Canadian University. This effort to publicize the aims, ideals, and successes of the Federation, has been hailed as a good way to unify the over fifty thousand Canadian University students across the country by prominent university officials.

Mr. Clark, a former editor-in-chief of The McGill Daily, is only one of several prominent guests invited to the banquet, including Dr. F. Cyril James, Principal of McGill University, Mr. H. J. Larkin, Managing Editor of the Gazette, Mr. Guy Cunliffe, Associate-Editor of the Gazette, and Mr. Newman Club to Hold St. Patrick's Dance

The Newman Club will hold the last of its social events this year in the form of an annual St. Patrick's Dance on March 17th, at 8.30 p.m. at the club. There will be a variety of entertainment including a chorus line, a Melodrammer and a sing-song.

The Club will be decorated appropriately for the occasion and also it is rumored that there will be a special guest in the person of The Old Man of Ireland—St. Patrick, Himself.

The price of admission will be 50 cents for members and 75 cents for non-members.

Queensmen Jailed Following Smoker

Kingston—(CUP)—Four Queens University students were jailed on charges of disorderly conduct following an Arts Society smoker recently.

The four are Donald C. Brittain, Allan P. Crofoot, Oscar Gubelman and Donald MacNiven. Brittain and Crofoot are respectively, editor-in-chief and literary editor of the Queen's Journal, undergraduate newspaper.

When they appeared in court Friday morning, Magistrate J. B. Garvin dismissed the charges. A spokesman for the four students, immediately announced their intention of filing a memorandum with the police commission, complaining of their treatment and of jail conditions.

"Six policemen and a plain-clothesman were on hand," stated student William Bauer, "as if they expected a riot."

New Commerce Tie Now on Sale in Union

The CUS has approved a new commerce tie, which is the first official tie of any school. It is in regimental style, crossed diagonally by a red and white stripe alternately arranged. Out of the original dozen to be sold this year two dozen are left and these are on sale in the McGill Union for \$1.50. The hours will be from 10 to 12 and 1 to 2 p.m. Monday, Wednesday and Friday, and 12 to 2 p.m. on Tuesday and Thursday.

Tetrault, Harbour Vie for Top Post

By JOHN CUNNINGHAM

Today's the day when the McGill student body will pass judgment on six fellow students who have been campaigning during the past two weeks for election posts on the campus.

However if yesterday's Election Rally is any sign, very few students will take the time to cast their ballots.

For the second time in approximately as many weeks apathy has

reared its ugly head on the campus. The Union Ballroom again provided the location for an exhibition of student indifference at McGill. Closely following on the heels of February 22, Student's Society failure, yesterday's Election Rally was attended by a mere 60 students.

The Election Rally, from 1-2 p.m., was held in conjunction with today's campus-wide elections. The speakers were Leonard Harbour and Jacques Tetrault, candidates for President of the Student Society, Jon Ballon and James Carlier, candidates for President of the McGill Union, and Anthony Gualtieri and Allan Levine, candidates for Secretary of the McGill Union.

Arts and Science Semi-finals Today

The semi-final debate for the Arts and Science debating cup will be held today at 1 p.m. in the Union Ballroom.

The contest will be between the winning teams from second and fourth year Arts and Science.

The topic is Resolved: "that United Nations interference in Korea was justified." Upholding the affirmative are Avrum Cohen and Marvin Gameroff, representing second year; while Niels Nielson and Jim Robb of fourth year will uphold the negative side of the resolution.

Arthur Leznoff will judge the debate, while Harvey Crestohl will be in the chair.

Newman Club to Hold St. Patrick's Dance

The Newman Club will hold the last of its social events this year in the form of an annual St. Patrick's Dance on March 17th, at 8.30 p.m. at the club. There will be a variety of entertainment including a chorus line, a Melodrammer and a sing-song.

The Club will be decorated appropriately for the occasion and also it is rumored that there will be a special guest in the person of The Old Man of Ireland—St. Patrick, Himself.

The price of admission will be 50 cents for members and 75 cents for non-members.

Daily Banquet: Former Editor in Chief, Clark To Address Daily Staff Tonight

The Annual McGill Daily Banquet, to be held tonight in the Union Grill Room, at 7 p.m., will feature Gerald Clark, Montreal Standard columnist, as guest speaker.

Mr. Clark, a former editor-in-chief of The McGill Daily, is only one of several prominent guests invited to the banquet, including Dr. F. Cyril James, Principal of McGill University, Mr. H. J. Larkin, Managing Editor of the Gazette, Mr. Guy Cunliffe, Associate-Editor of the Gazette, and Mr. Newman Club to Hold St. Patrick's Dance

newspaper work as a staff writer with the Montreal Standard. He spent a short time in Ottawa as a resident reporter, and was then given an assignment as overseas war correspondent. In Europe he covered such events as the invasion of Normandy, the liberation of Paris and the link-up with the Red Army on the Elbe River. He was one of the fifteen correspondents present at the signing of the German surrender in a red schoolhouse in the cathedral town of Reims on May 6, 1945. Among the several post-war events which he covered in Europe were the Nuremberg trials and the treason trial of Marshal Petain. Last year at this time Clark was in the Far East doing a series on the Chinese Communist regime, a series which was syndicated in over a dozen newspapers across Canada.

The title of Clark's talk will be "Play Hookey—It Pays". Clark will attempt to illustrate the "backstage" in news gathering, based on his own personal opinion, and to show how breaks sometimes give you "the best stories of your life."

When asked what he thought of college newspapers in general and the Daily in particular, Clark replied that a college newspaper gives the prospective newspaperman the "best groundwork he can get for journalism."

The McGill Daily, he said, is much more cosmopolitan today than it was before the war.

After Clark's speech, promotions will be announced by the editor-in-chief, John Scott. A round of toasts will follow and then a regular Daily party will be held in the Reading Room. During the course of this party awards for the year's work will be presented to the staff.

The managing board of The Daily has made a special request that all Daily staffers be present at 7 p.m. sharp for a prompt start will insure the success of the evening.

McGill Choral Society Awaited Springsong Features Chorus, Harpist, and Soloists

By BETTY QUINT

As in past years, the Annual Concert of the McGill Choral Society,

Medical Ball To Be Held on St. Pat's Eve

The annual ball of the Medical Undergraduate Society will be held on St. Patrick's Eve, Friday, March 16, in the Sir Arthur Currie, Gymnasium. The Ball will feature a St. Patrick's Day motif.

Prominent members of the local medical profession and University officials have consented to be patrons of the Ball. Included among these are: Chancellor and Mrs. O. S. Tyndall, Principal and Mrs. F. Cyril James, Dean and Mrs. G. Lyman Duff, Dean and Mrs. D. L. Thompson, Dr. and Mrs. Jonathan C. Meakins and Miss G. D. Mudge. The patrons will be received at a reception in the Officer's Mess by Mr. Hugh Brodie, president of the Medical Undergraduate Society, E. C. Percy chairman, and members of the Ball committee.

Continuous dance music from 10-11 will be provided by Johnny Holme's Orchestra, featuring Bill Stevens.

The Ball is not limited to members of the local Medical profession and Medical students of the University. All pre-Medical students can attend. Tickets may be obtained from Mr. Marshall in the Medical Building, class representatives and representatives at the various teaching hospitals. Table reservations may be left with Mr. Marshall.

Student Society Elections Today Decide Important Posts

For President, The Students' Society

Leonard Harbour
Pen Sketch

Len Harbour is an experienced executive and administrator. Coming to McGill in 1946 with two scholarships, he has, since then, been an active participant in campus life.

At present, Len is a member of the Student's Executive Council. This position has given him an even greater knowledge of student activities and has enabled him to realize fully what duties are required of the President of the Student's Society. The S.E.C. appointed him as Executive Advisor to the Book Store and his work in this capacity was commended highly for its efficiency.

Len is also Vice-President of the National Federation of Canadian University Students, in which position he represents the six Quebec Universities to the National Executive. It is notable that his motion, made at N.F.C.U.S. National Conference, concerning the method whereby the Western students could send aid to the students in oppressed countries, was adopted at the recent Scandinavian Conference of Western Student Unions.

In 1948-49, Len was President of the Arts & Science Undergraduate Society. The records show that this was one of ASUS' most active and progressive years. In this capacity he was responsible for sponsoring the first Arena Wing Production, thus aiding the establishment of one of McGill's most laudable activities.

We know that Len will carry out the duties of President of the Students' Society with wisdom and sincerity. He knows the workings of this campus well. This list of his activities is evidence of his experience and ability:

A.S. Annual representative 1947; Choral Society 1946-51; Scarlet Key 1948; A.S.S. 2nd Vice-President 1947-48; Red & White Revue 1948 & '49; Educational Committee 1947-49; Co-Chairman N.F.C.U.S. 1949-50; A.S. President 1948-49; S.E.C. 1951.

SHEILA LEPOFSKY
MARTHA WICKENDEN
BILL MCCALLUM
MEL ROTHMAN
ISADORE ROSENFELD
JOAN O'CONNELL

Platform

If the interest of students in extra-curricular activity is to increase, it is necessary to increase the efficiency of the present organizational set-up. To this end I propose the following:

(1) That each member of the Students' Executive Council become more familiar with the programs, budgets, and scope of the clubs and societies on this campus. This information can be provided by the Departmental Directors, who act as liaisons and advisors to the clubs under their departments. Reports of activity of these departments should be made to the S.E.C. in the beginning of the year. By doing this, major technical difficulties can be ironed out and avoided. One misdemeanor by a small club can often waste much time and energy in discussion and investigation.

(2) That the Social and Theatrical Directors sit on the Dates Committee. This committee should meet regularly and often. It should also have first-hand information re program. The present membership of the Dates Committee includes people who do not have adequate time to give to the committee. These aforementioned directors do have more time and can work more efficiently for their clubs and societies by having a definite part to play in setting up the program of campus events.

(3) That the department of Inter-University Affairs be co-ordinated under the Vice-President. Technically speaking this is already so, but so far it hasn't worked that way. Such co-ordination would:

Jacques Tetrault
Pen Sketch

We, the undersigned, strongly recommend Jacques Tetrault as the unquestioned candidate for the position of President of the Students' Society.

Not only has Jacques the necessary wide experience in student activities, but he also has proven executive ability, maturity, tact, a fine sense of humor, and an enviable academic record. Above all he possesses that wonderful faculty of being able to get people of all types to work for him. His accomplishments speak for themselves:

(1) One of the original workers for the McGill Winter Carnival, Jacques was appointed its Executive Vice-Chairman and Finance Director in 1949. As a result of his strong leadership and careful financial administration, the Carnival netted the greatest profit it has ever shown (\$3,000) and was thereby assured a definite future. For his excellent work Jacques received a Students' Society Gold Award.

(2) As further recognition for his services, Jacques was chosen as one of five students at the University to be honored with appointment to the Scarlet Key Society. This year, he was elected President of the Society. As a member of the Key, Jacques has come into close contact with every type of student activity, thereby gaining a rich insight into the many and varied problems of campus life.

(3) As President of the International Relations Club this year, Jacques acted as Chairman and organizer of the Regional Conference of American I.R.C. Clubs at Christmas-time. In this role, he has greatly familiarized himself with student affairs at this and other universities and has helped to strengthen McGill's fine reputation for showing hospitality to foreign students.

(4) Graduating in Commerce with Honors Economics and a First Class Average, Jacques is presently one of the top students in Second Year Law. His knowledge of Accounting and Law will be invaluable in the understanding of budgets and constitutions, two of the most important phases of student government.

Jacques' other activities include: (1) Vice-President, First Year Law; (2) Treasurer, Themis Ball Executive, 1950-1951; (3) Athletics Night Organization, 1946-47-48; (4) Dawson College Track Team, 1945; (5) Interfaculty Tennis Runner-up, 1949; (6) McGill "B" Squash Team, 1950.

Thus, Jacques Tetrault has again and again proved himself a capable leader, efficient organizer, and cheerful joiner in all types of campus activity. These and other qualities have earned him the respect and admiration of students in all faculties of the University. It is therefore no wonder that we wholeheartedly endorse Jacques Tetrault as President of the Students' Society.

GEORGE STEPHEN
FETE ROBINSON
DAN KINGSTONE
HUGH BRODIE
JOHN DINSMORE
MARY RICHARDSON

Platform

In outlining my program, I wish to make it clear that I am not making idle promises. I intend to make very determined efforts to see that it is carried through.

Executive Administration:

(1) A clear non-political approach to student affairs and encouragement to all groups and clubs.

(2) Endorsement of the new re-organizational plan put in force this year which established Central Functional Committees which coordinate program planning, centralized advertising and publicity and enables greater co-ordination of campus activities.

For President, The McGill Union

Jon Ballon
Pen Sketch

One glance at Jon's excellent record will convince the discriminating student that here is the man most capable of discharging, in an outstanding fashion, the duties of President of the Students' Union in 1951-52.

Those of us who have worked with Jon know his all-around ability and tremendous drive and energy. While he has an impressive list of activities to his credit, he has contributed to each one a novel and fresh approach, as well as the full share of hard work needed to carry it through to a successful conclusion. He is well liked by his many friends and co-workers, with whom he has always co-operated and shared credit fully.

This year apart from his heavy duties and fine work as Chairman of the Dates Committee, and Vice-President and signing officer of the Union, Jon has been Editor-in-Chief of the C.A.M.S.I. Journal, the official publication of 4,000 medical students across Canada.

In past years in Medicine and Arts and Science, Jon has built up a truly impressive backlog of executive experience, as indicated below, together with a well founded reputation for honesty, sincerity, conscientiousness and a tremendous capacity for solid effort. He is one of the very few students in recent years who has been awarded two Student Society "Gold A" awards for student leadership.

His principal activities in Medicine and Arts and Science have been:

Executive:

- 1. Student Executive Council, Arts and Science representative.
- 2. Vice-President and Signing Officer, McGill Union.
- 3. Chairman, Dates Committee.
- 4. Secretary, McGill Union.
- 5. President, Debating Union.
- 6. Chairman, Freshman Reception (twice).
- 7. Arts and Science Undergraduate Society, Secretary.
- 8. Editor-in-Chief, Journal of the Canadian Association of Medical Students and Internes (C.A.M.S.I. Journal).

Cultural:

- 1. Founder and Chairman, Arts Science Education Committee.
- 2. Co-Chairman, U.J.S.A.
- 3. Chairman, Discussion Groups, Cosmopolitan Club.
- 4. Intercollegiate and Radio Debating.
- 5. Athletics:

- 1. Senior Football Team, two years ('43 and '44).
- 2. Intermediate Hockey.
- 3. Intermediate Hockey.
- 4. Intra-mural Athletics Council.
- 5. Inter-class Hockey Manager.

Scholarships:

- 1. Institute of World Affairs.
- 2. I.S.S. 2nd International Summer Seminar in Holland, 1949.

Jon stands for election to this post on the basis of this outstanding record. If you feel, as we do, that the position of President of the McGill Union demands high calibre executive ability, integrity, and an unlimited capacity for hard work, Jon is the man you will want to represent you as President of the Students Union for 1951-52.

Platform

As I see it, the main duties of the President of the Union are: first, to stress service to the students by keeping the Union efficient and clean; and second, to insure adequate renovations as funds become available.

If elected, I would therefore stress:

- A. Policy Matters:
- 1. Grill Room and Cafeteria:
- a. Improved quality and variety of food.

Jim Cartier
Pen Sketch

Jim's career in extra-curricular activities has progressed year by year; commencing at Dawson where he was the playing coach and captain of the final basketball team in 46-47. Coming to McGill he entered the debating field and the next year won the inter-faculty debating shield. It was during this year that he became interested in the varied activities of the Arts and Science Undergraduate Society. The following year he became the treasurer of this society and was awarded one of the three 'A' awards for his services.

This year Jim has held the office of President of the McGill Union. The list of his contributions to the development of the Union includes well over 30 items. Notable among these, are the redecoration and renovation of the Reading and Ballroom and the installation of the Short Order Bar replacing the Cafeteria system.

Through his close connection with many of the clubs and groups on the campus, he has been of great value to both the Council and to those clubs in their relations with the Council.

It is our belief that through the experience gained in his position this year, as well as his many contributions to the development of the Union, along with his undiminished interest in the Students' Society in all its aspects, that Jim Cartier is well qualified for the presidency of the Union for the term 51-52.

DOUG SIMPSON
HUGH BRODIE
BILL SHATNER
NIELS NIELSEN
VINCE JOLIVET
ISADORE ROSENFELD

Platform

The Union has come a long way in the last two years in the general direction of improvement. This year I was fortunate enough to have sufficient funds to implement many of the ideas which I propounded in my platform last year. The objective remains the same; to develop this Union building, through renovation and redecoration.

The immediate plans for the Union are as follows:

- 1. Making over the old kitchen in the basement and transforming it into a large clubroom.
- 2. A complete renovation of the cafeteria or Short Order Bar; which would include new tables and chairs, and general redecoration.
- 3. A general remodelling of the basement and offices.
- 4. The purchase of folding tables and chairs for use in the Ballroom.

These items are imperative and their implementation should have first call upon the surplus of Society funds.

This year I was appointed the head of an investigating committee to look into the possibilities of building a new Union. I have gone over a dozen earlier reports and have come to the conclusion that a calculated drive in conjunction with the Graduates Society and with the sanction of the University is the only manner in which we will see a new Union within the next ten years. Without the active support of both these bodies the work of the committee is of little use.

The position of the President of the McGill Union has undergone considerable change in the last few years. It was so constituted to enable the House Committee to handle much of the social aspect and activities on the campus; which it no longer does. Along with the President who is responsible for the overall administration of the building, and the vice-president whose principle task is the chairmanship of the Dates Committee; there should be an advisory group whose purpose would be to decide upon policy, short and long range,

For Secretary, The McGill Union

Nino Gualtieri
Pen Sketch

We, the undersigned, heartily recommend Nino Gualtieri for the post of Secretary of the Men's Union. While working in a great variety of campus affairs, he has proven his executive ability, his energy, and his capacity for sound judgment. His interests have been of the broad and varied nature that is extremely important for the filling of an executive post in the Men's Union.

Nino has been an active member of the Writer's Club and Literature Society and has served as Publicity Director for the past year. He has also shown great talent in the field of debating, and though in his first year of active participation, succeeded in representing McGill in the annual M.D.L. Competition. But Nino's interests are not confined to the intellectual field. He is at present a playing member of the Arts and Science Basketball Team, which he has managed to their present position in the Intra-Mural Finals. Nino is also active in the Reserve University Flight of the R.C.A.F. and has broadened here his experience and knowledge.

In view of the probability that the post of Secretary of the McGill Union will be next year greatly heightened in responsibility and importance, we urge strongly the election of Nino Gualtieri to this position, as a man of proven competence and skill.

MIKE BRODEUR
MEL ROTHMAN
NIELS NIELSEN
KEITH DRUMMOND
DAVE LESPERANCE
BILL MAGYAR

Platform

The present function of the Union Secretary has changed from the constitutional definition of his duties. The Secretary no longer handles the correspondence and keeps the minutes of the Union Executive.

Rather, he must perform the work and duties dictated by existing conditions and delegated to him by the Union House Committee of which he is a member.

Through discussion with the Union Executive, I have become acquainted with the responsibilities of the Secretary and I promise to fulfill these duties to the best of my ability.

By virtue of association with Union Activities, I realize the needs of our Union. Two projects I will urge on the Union House Committee are the lowering of food prices wherever this is possible, and the establishment of a special booth or section of the counter for those desiring drinks only which may be served rapidly.

If elected as your representative I will regard it my duty to be always open to any constructive suggestion for the improvement of the Union. I will bring these suggestions before the Union House Committee and strive to the full extent of my capabilities to carry them out.

NINO GAULTIERI

Debating Union Award Winners Are Listed

The recipients of the highest awards for outstanding performance, the Gold Key awards, have gone to Chuck Taylor, Doug Gross, and Perry Meyer.

'A' awards for high calibre in intercollegiate debating, have been awarded to Creighton Vallee, Art Garmaise, Howard Graffey, Leo Kolber, Leo Stern, Dan Kingstone, Murray Spiegel, Marvin Gomeroff, Pat Vor, Jack Shayne, Lucille Charney, and Irwin Glisterman.

Honorable Mention awards were awarded to Anthony Whittaker, Don Wallis, Nick Vlahos, Fred Vosberg, George McIntock, Jim Rossi, Greg Friend, Herb Grey, Don Heap, Mike Harding, Gerald Burke, Len Warsaw and Ted Baxter.

Allan Levine
Pen Sketch

Al Levine, a Montreal boy, entered McGill in 1949 after having graduated from the High School of Montreal. There, he was president of both his class and the debating society, represented the school in the Rotary Club Public Speaking contest and was a member of the Annual Board. Al as co-chairman of the Pep Rally committee was instrumental in organizing this year's rallies. He was elected to the A. and S.U.S. as treasurer of his year and has shown an active interest in many other student activities. Those who know Al know he is a man of character, one who is conscientious and thorough in all that he undertakes. A hardworker, Al is able to carry out programs efficiently and will be an asset to the Union House Committee and loyal to his fellow students.

Platform

The functions of the McGill Union are twofold. The Union is both a place to eat, and somewhere to go for casual student recreation. If elected, I shall work for the improvement of the Union's facilities, to fulfill these functions.

The secretary of the Union is a member of the Union House committee, and could in this capacity, work for the extension of recreational facilities in the Union by using the ballroom as it can be used; by making ping pong tables available and by moving card tables there thus alleviating the congestion in the Billiard hall. These tables could be removed to the adjoining room if necessary and therefore would not interfere with other student activities such as mass student society meetings and dances which are often conducted in the ballroom.

The reading room can be improved by equipping it with a new radio as the present radio is antiquated and reception is poor when it does work.

The now dismal cafeteria could be provided with a more pleasant atmosphere by installing a working radio there.

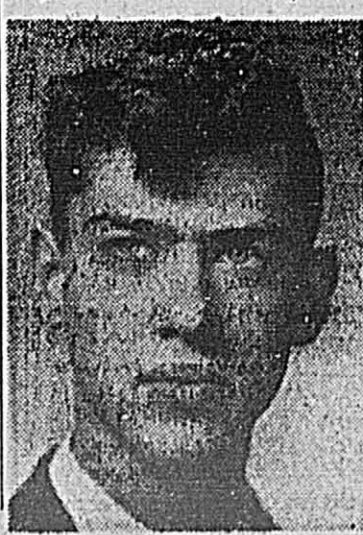

The terrible congestion in the Grill Room can be eased by enforcing the existing rule that there should be no coats on the chairs and by moving tables on the walls together so that large groups can sit together without the movement of chairs from table to table and the blocking of traffic that now takes place.

All these improvements are reasonable and desirable and are within the possibilities of the meager Union funds.

If elected, I will co-operate with the executive in carrying out the above platform and I will serve the interests of the students to the best of my ability.

ALLAN LEVINE

D. Kingstone Acclaimed Vice-Pres. of the Union

Len Harbour

liaison between the Debating Society, the I.S.S. and the N.F.C.U.S., and the S.E.C.

(b) provide for a closer watch on the budgets and programs of these groups.

(c) enable the S.E.C. to refer directly to the proper committee concerned with such events as the Laval Visit, the Finnish Choir and visiting speakers and personages; and also make definite provision in the budget for such events.

Other proposals include:

(1) Book Store Improvements. The President is a member of the Book Store Administration. In this position I would propose (a) more space in the Book Store. This would also increase the efficiency in the service. (b) a bonus gift to students buying books in the Store. This would come out of the net profit and would serve to increase buying in the store.

(2) Purchase Card System. Many students receive letters from retail stores offering reductions in price. A system has been in effect in the United States whereby students, at registration, receive cards which, when presented at the time of purchase, entitle the student to a reduction. Such a system could be investigated here, and on the basis of past advertisement city stores could increase sales and also benefit students. If elected I will definitely produce evidence which will aid the system and will see that it is put into effect.

(3) Speakers. This cosmopolitan university would benefit by a program providing for world leaders and authorities to come and speak to the students. Past events in this line have shown good response, as in the case of Eleanor Roosevelt. Provision could be made in the budget for this program.

If elected I promise that I will sincerely devote all of my ability and experience to the improvement and enjoyment of student life at McGill.

Leonard T. C. Harbour

Jon Ballon

b. Immediate implementation of a practical plan, drawn up over a year ago, to speed service.

c. No shutdowns (for student society meetings, etc.)

2. Rentals:

a. Elimination of rentals for student functions for which there is no admission charge.

B. Renovations:

I would press vigorously for the following matters which I have investigated this year, and for which funds are available:

1. Club offices and meeting rooms (Red and White Revue, Workshop, Annual Daily, etc.)

a. Painting of walls and ceilings.

b. Refurnishing with filing cabinets, new chairs, new cupboards.

c. Improvement of lighting.

All Campus clubs would gain considerably from these necessary, practical renovations.

2. Complete cafeteria overhauling.

a. Painting of walls and ceilings (bright, appealing colors).

b. New chairs and tables, curtains and flooring.

c. Addition of pictures to the walls.

3. Conversion of the large basement kitchen, unused this year, into a club room (cost approximately \$3,000.00).

C. Cleanup:

Jacques Tetrault

committees.

(4) A definite policy of autonomy for Undergraduate Societies. Since direct grants are given by the S.E.C. to the Societies, they should be given great freedom to do with this money as they wish.

(5) A larger role to the co-ed in student administration:

(a) Support of MWSAA president as a representative on the S.A.C. and thereby giving the co-eds a stronger voice in the running of University athletics. (b) Encouragement of greater co-ed executive leadership in student affairs.

Extra-curricular Activities:

(1) Encouragement of campus clubs and societies:

(a) Redecoration of club rooms in the Union, particularly in the basement. (b) Increased Faculty support, especially in obtaining "outside" speakers. (c) Support of system of co-ordinated bulk buying of decorations, poster materials, electrical equipment, etc.

(2) Broadening of inter-university relations:

(a) Support of plan of scholarships to be given by the Federal Government both to Canadian and European students; (b) Increased inter-university conferences such as the annual Laval trips and the organization of a Model U.N. Security Council with students from American and other Canadian Universities.

(3) The organization of a McGill Concert Band.

Athletics:

(1) Insist that the Chairman of the Student Athletics Council be elected by the students.

(2) Urge the Senate to consider immediately the plan for reorganization of athletics giving greater weight to student opinion in athletic policies.

(3) Support the elected Athletic Representative as a member of the S.E.C.

(4) Oblige all physically fit Freshmen to participate actively in at least one sport.

Student Welfare and Interests:

(1) Referendum in order to gauge student opinion on the advisability of setting up a comprehensive system of student group health insurance by extending the present university plan so as to include sickness and hospitalization.

(2) Endorsement of the plan for reduced tram fares.

(3) Revival of the Student Book Exchange, enabling students to obtain second-hand books very cheaply.

(4) Insist that all books and materials be sold as cheaply as possible in the University Book Store.

Jacques Tetrault

Jim Cartier

and development.

Boris Gardavsky has made an immense contribution to the Students' Society and the Students' Executive Council on the executive level, which can only be appreciated by those who have studied the matter and have compared the organization this year with that of past years. Nevertheless to maintain such a scheme, communications with the societies and clubs on the campus must be maintained and in some instances improved.

In this coming year, there are several projects which I propose to undertake in connection with the Executive Council. A general survey of the minutes of the meetings of the Council indicates a definite need of a summary of motions pertaining to very controversial and perennial issues which bogs the progress of the Council.

Motions pertaining to such issues as Banquets; Pep-rallies; breach of rules and regulations; would be summarized under their special headings and would assist the council in making decisions with more certainty and authority.

I should mention briefly, at this point, intercollegiate relations. On this point policy has been sporadic if not nebulous. I have had the privilege and pleasure of visiting several of the universities in eastern Canada as a delegate to conferences from McGill and at each of these have been warmly received. If McGill is to keep pace with other Canadian universities, a definite program should be inaugurated and co-ordinated under a committee of the S.E.C.

In conclusion there is one point which I would like to emphasize: and that is the importance of continuity in the function and development of the Union and the Student Society. I feel that on the basis of what I have achieved this year, and on the strength of the proposals which I have investigated and have here propounded, that I will be able to make a significant contribution to the Union and the Society in the coming year.

Jim Cartier

Danish I.S.S. Offers West Europe Tours

Do you have plenty of time and money, and an urge to travel abroad?

If you do then you probably would be interested in the Danish International Student Committee's new plan for European tours. The object of this new plan is to acquaint American and Canadian college students with the lands from which their forefathers came and with the civilization and cultures from which Canadian and American culture here developed.

This plan is sponsored by the Danish International Students Committee, the National Committee of the world-wide International Student Service. The project is non-profit and is run by Danish students. Under the plan it is possible for a small group of students to go practically anywhere they choose in Western Europe. They travel by car, either new American Ford, or British "Consul" Ford, accompanied by a Danish student who acts in the capacity of guide and leader. The guides have a wide understanding of languages and have passed examinations to qualify them to act in this capacity.

These tours are conducted in groups of three or four students and a guide. The students are given the option of an organized tour or an independent tour. The independent tours are planned by the students themselves, to include the places they want most to visit. Both these plans include the same type of transportation, accommodation and program and there is no difference in price.

The duration of these tours is 45

days and includes unlimited mileage during length of tour, a car to meet you when you arrive on the continent, accommodation in medium-class hotels and colleges, service charges and tips, entrance fees to museum and other places and full insurance covering both the car and its passengers.

These tours can be carried out at any time of the year, though most Canadian and American students come during June, July and August. The price of the tour for four passengers and a guide per car is \$570.00 per person. For three passengers and a guide in an American Ford the price is \$675.00 each while in an English Ford the price would be \$825.00 each. These prices include the costs of the tour only and do not include the price of trans-oceanic transportation.

The Danish International Students Committee will book trans-Atlantic transportation for those attending the tours. This may be either by boat or plane. By boat the prices range from student dormitories at \$280 to 1st class accommodation at \$550. A round trip by plane ranges from \$600 to \$650.

Anyone wanting further information on these tours may write to the U.S. National Student Association, Travel Department, Hotel Woodstock, Times Square, New York 18, New York.

WANTED

Ride to Boston for three girls on the Easter week-end. Can leave Wednesday or Thursday and will share all expenses. Betty Toscano U.N. 0206.

THE DEFENCE RESEARCH BOARD REQUIRES ENGINEERS

The Defence Research Board requires graduate Engineers for full-time employment in the following specialized fields:

Electrical Engineers—Five positions—for Laboratories at Halifax, N.S., Vancourt, P.Q., and Ottawa, Ont.
Mechanical Engineers—Ten positions—for Laboratories at Vancourt, P.Q., Halifax, N.S., and Suffield, Alta.
Chemical Engineers—Four positions—for Laboratories at Halifax, N.S., and Vancourt, P.Q.
Metallurgical Engineers—Two positions—for the Board's Laboratories at Halifax, N.S.

The initial salaries for applicants with Bachelor Degrees will not be lower than \$2,760 per annum. Allowances will be made for applicants having experience and additional academic qualifications.

Apply to: DIRECTOR OF RESEARCH PERSONNEL, DEFENCE RESEARCH BOARD, DEPARTMENT OF NATIONAL DEFENCE, "A" BUILDING, OTTAWA, ONTARIO.

Writing on Dark-room Walls Pastime of Physics Students

By ANGELA HENNESSY

The Physics building, though of great interest to students interested in Physics, or even to a few Architects who perhaps marvel at the fact that it is still standing, is probably for the rest of McGill, little more than just another building on our campus. Little do most students realize what great treasures of McGillian wit and sarcasm can be found within its venerable walls.

If you are passing by one day and find that you have about an hour to spare, don't spend it in the Union—just this once. Go up to the Physics building dark-room and en-

tertain yourself reading the various comments which are engraved in pencil on the black walls.

The dates after the signatures range from the year 1884 to the year 1951. There are also, a few inscribed in 1910 and 1911. This evidence leads you—reporter to wonder "How old is the Physics building anyway? Certainly not as old as it looks!"

The curious student will be pleased to discover that celebrities have also found the dark room exciting. Irene Dunn's name was unearthed and so was the rather unkind remark of a suspicious student who wrote "Done what" under her name. Then further on along the wall this reporter found Thomas Edison's glad tidings "Eureka I have found it!" He doesn't say exactly what, but the Physics students expressed their opinion that it wasn't. The Thing which is a modern discovery McGill will also be flattered to note that Kilroy paid her a visit too.

Judging from the hundreds of signatures and comments which line the dark-room walls, one could almost believe that little work is done in this particular part of the building. In fact this reporter was inclined to wonder if the following comment did not then, and does not still, perhaps express just how the frustrated Physics student feels when he is finally driven to writing on the walls. The remark is: "To hell with Hitler and Physics!"

Fine Arts Party

The School of Fine Arts cordially invites all members of the Fine Arts Club to their Masquerade Party on Friday, March 9, 1951, at 9:00 p.m. at the studio, 3450 Drummond Street. The admission will be 50 cents per couple. Non-members will also be admitted.

Marxist School Planned for May By L.P.P. Club

The McGill Labor Progressive Party Club has announced that it will hold its Marxist School between the 11 and 20 of May this year. The School which is an annual event of the Club has been organized so that students can follow a planned course in Marxist theory.

The ten sessions which will comprise the School will each take the form of a lecture, delivered by a leading L.P.P. spokesman, and a discussion period. Among the topics which are to be discussed this year will be "Dialectical and Historical Materialism", "Political Economy" and "Nationalism". The sessions will take place at the Union, and information as to time and subject will be posted in the building as soon as a final schedule has been arranged.

"It is hoped that many students will avail themselves of this opportunity to study Marxist philosophy, and will contribute to the discussions freely in order that the School may be as much a success this year as it has been previously," stated a Club spokesman.

Pullinger of Drama Dept. to Join CAT

A. J. H. Pullinger, McGill graduate and at present technical director of Drama Department, will join the staff of the Canadian Art Theatre as technical director, it has been announced. Mr. Pullinger will aid Joy Thomson, director of C.A.T. to stage the twelve weeks of productions at the Mountain Playhouse and will assist in forming a Summer School of Theatre Arts.

Pullinger graduated from McGill in Arts in 1943. He returned to his native province to teach drama at the University of Saskatchewan. After two years service in the army, he proceeded to Yale, where he received the degree of M.F.A. in 1950.

Veterans' Grad Studies

"The official regulations concerning Post Graduate Studies for veterans have now been received and may be inspected in this office," it was announced by Rev. Clifford Knowles, Student Chaplain, yesterday.

TRI-LINGUAL THESPIANS of the German Club rehearse for the Club's final presentation of the year—a comedy in three languages entitled "The Arms of Venus." The play has its setting in the Louvre in Paris, and the conflict is presented when a German archeological expedition uncovers the Venus's arms to the great chagrin of one of the Louvre's attendants who has sound reasons indeed for wishing them lost forever. The comedy will be enacted on March 9 at 8.30 in Divinity Hall. (Daily Photo by Hall Martlett.)

Dr. Marshall Is Director Of Desoundproofing Library

Students will be relieved to know that when the new library is built they will not be unnerved by its supernal silence. Precautions are being taken to provide soundproofing of sufficiently low efficiency that enough noise will be present to provide a situation psychologically correct for studying. Dr. John Marshall of the Physics Department is in charge of this operation.

By means of a flashlight-like-looking apparatus called a sound level metre, Dr. Marshall has been making a study of present noise conditions in the Redpath Library. Normal noise level there is approximately 65 decibels, roughly equivalent to that in an average office. This is probably too much for most efficient studying, but Dr. Marshall feels that with present crowded conditions, little can be done about it.

Professor Marshall also has made a study of noise in university lecture rooms in connection with installation of loud speaking systems. Recently he invaded the cafeteria of R.V.C. to make a study of sound conditions preparatory to its soundproofing. During lunch hour, level of conversation reaches 85 decibels, he found. This approximates the din of Sherbrooke St. during rush hour, with a bus going by. As a demonstration, he played back some

U. of M. Hockey Hop

An Invitation has been extended to all McGill students to attend a Hockey dance at the University of Montreal. This event will take place on Saturday, March 10th, it was announced yesterday.

Student Opinion of Activities Sought by the Women's Union

By MARY DRAPER

Do you approve of the work of the Women's Union? If not you will soon have a chance to express your views where they will do the most good. Peggy Pierce, President of the Women's Union announced at an open meeting yesterday that a pool of student opinion on the workings of the Women's Union, would be held in the near future. In the next issue of Miss McGill, which is to appear soon, there will be included a form with a number of questions on it, regarding the past activities of the Women's Union. All coeds will be asked to fill out one of these forms.

In announcing this plan, Miss Pierce said that "we don't care whether you say you like us, we'd rather hear you say you don't and tell us why." The second meeting of the year was held in the R.V.C. common room yesterday afternoon.

The meeting opened with the reading of the minutes of the last meeting by Secretary Mary Ramsay. As no quorum was present, they could not be adopted. A \$2-200. balance in the Women's Union bank account was reported by the treasurer as she read her annual

report. President Pierce commented that the members of the executive were worried about the student apathy with regard to the election of executive officers for the Women's Union. She expressed concern over the fact that, while 1322 women students each pay \$3.50 per year to the Women's Union, giving it \$4,827 to spend each year, there is very little interest shown by the co-eds in the choice of those who are to spend their money."

Reports of the various societies under the Women's Union were then heard. These included the Graduate Nurses Society, the R.V.C. Historical Society, and the Women's Medical Club. As the presidents of these societies were not present, various members of the executive read the reports that had been submitted.

There were no reports submitted by the Physiotherapy Society or the Art Committee. In closing the meeting, President Pierce said a few words of thanks to the members of the newly acclaimed president and secretary of the Women's Union, Mimi Pickering and Ruth Taylor. The meeting adjourned and tea was served.

WOMEN VOTERS

In the forthcoming elections on Wednesday, March 7, for the office of:

PRESIDENT OF THE STUDENTS' SOCIETY

WOMEN WILL VOTE AS FOLLOWS:

Non-resident Arts
Non-resident Fine Arts
Non-resident Commerce
Non-resident Library School

Women's Common Room
of the Arts Building

Science (Common First Year) Biology Building

Physical Education &
All Resident Students

R.V.C.

All other women will vote with the men at the Polls designated for their faculties—

EXCEPT GRADUATE NURSES AND PHYSIOTHERAPY

Who will vote Tuesday, March 6th, between 9 a.m. and 4 p.m., at the School for Graduate Nurses

ELECTIONS

Wednesday, March 7th

Polling Booths as Follows:

MEN

| | |
|--------------------------------------------|----------------------------------------------------------------------------------------------|
| Faculty of Arts and Science | Arts Common Room Open 9 a.m. to 4 p.m. |
| School of Commerce | Arts Common Room Open 9 a.m. to 4 p.m. |
| Faculty of Engineering | Engineering Common Room Open 9 a.m. to 4 p.m. INCLUDING SECOND YEAR ARCHITECTURE (2 M) |
| School of Architecture | Lobby—Architecture Bldg. Open 9 a.m. to 4 p.m. |
| Faculty of Medicine | Medical Building Open 9 a.m. to 4 p.m. |
| Faculty of Dentistry (1st and 2nd Year) | Medical Building Open 9 a.m. to 4 p.m. |
| (3rd and 4th Years) | Dental Clinic (M.G.H.) Open 9 a.m. to 4 p.m. |
| Faculty of Law | Day Hall Open 9 a.m. to 4 p.m. (Before and after classes) |
| Divinity | Divinity Hall Common Room Open 9 a.m. to 4 p.m. |

McGill Outplays Macdonald In Extramural Competition

HAROLD BERGEN
McGill's intramural season ended in a final blaze of glory last night as an appreciative audience witnessed the cream of interfaculty competition in action against the MacDonald College champions. And McGill's intramural king pins proved themselves by sweeping the slate clean of their Green and Gold competitors, winning basketball, volleyball, badminton, swimming, and riflery.

The Engineering Dawsons overpowered the Mac Juniors 54-31 in basketball with their two aces, Resznetnik and Matthews notching 21 and 14 points respectively. Shields and Kimpton were the Mac topdogs, counting 15 and 13 each.

Engineering added to their glory as they volleyball "Athenians" swamped an outclassed Mac crew in three straight games, 15-5, 15-3

and 15-4.
McGill's intramural badminton trio of Tink Kyte, Payette and Ed. Trudeau outfought their St. Annes rivals, winning seven games out of nine.

A large crowd witnessed a dazzling display in the Memorial Pool as the Medicine Duckmen outswam a Mac Agriculture squad 5-20. Canadians diving champion Leo Vigant and Provincial 3 metre diving king Claude Marin presented a crowd-pleasing display on the high board.

The co-ed tri-martlets, Dorothy Fee, Ruth Powell and Audrey Wipper put on a synchronized jazz rendition in the pool. Dressed in red swim suits trimmed with silver lame and silver caps, the girls executed the number with perfect co-ordination.

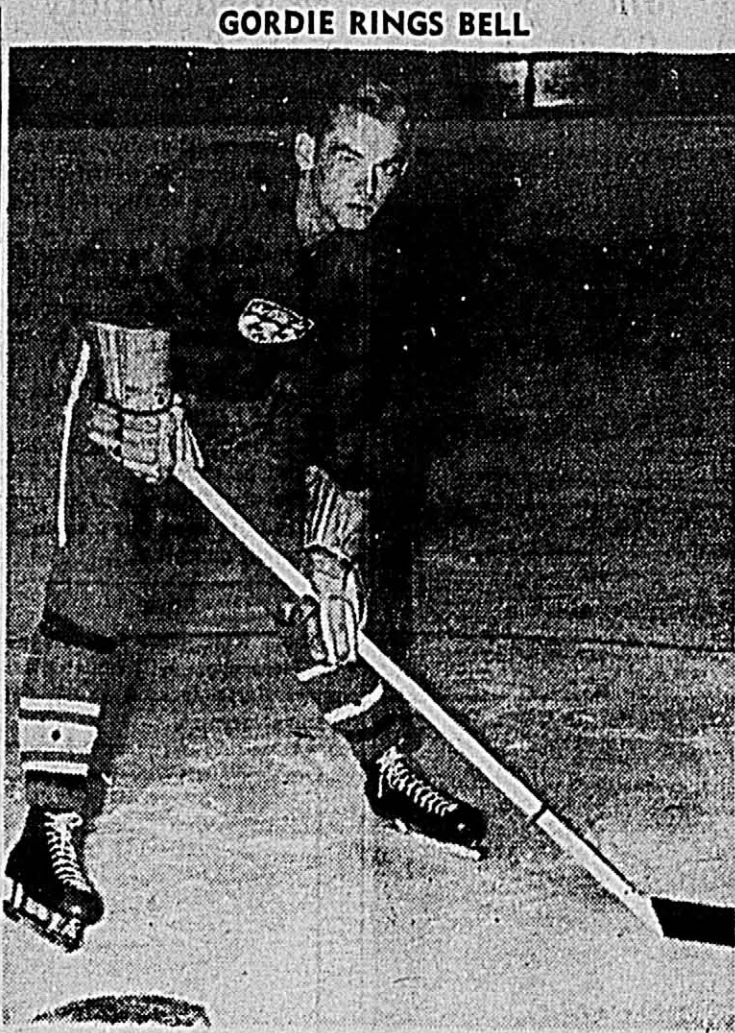

In the swimming meet, the MacDonald trio of Locke, Berry and Reynolds won the 150 yard medley in 1:41.8. McGill's Marshall took the 50 and 100 yard free style, Reid the 50, 100 and 200 yard breast stroke, Onest the 50 and 100 yard back stroke. MacDonald's Anderson won the 200 yard free style for the other Mac triumph.

On the Rifle Range, McGill rang up a 534 score to top MacDonald's 572. Intramural champ Peter Yapp counted 100 with 9X rings and Madeleine Lee led the Women's Club to a 546-530 win over the Mac co-eds, using the .22 sporting rifle.

Presentation of Awards
Following the events, presentations of awards to intramural team and individual champions were made by Howie Ryan, Intramural Director, and Bill Magyar. In Bowling, the Dent 'Paupers' won the team championship with teammates Hopgood, Truscott, MacEachern, and Tunge each receiving the I.R.A.C.'s new champion medals.

In Softball, Commerce won the Gunn Trophy, symbolic of intramural supremacy. Runners were Dentistry.

Other Silverware winners were Physical Education who won the Adams Trophy in Track and Field, and Engineering who won the Intramural Trophy.
The Dr. N. B. Dreyer Cup for Badminton supremacy was presented to Hargreaves, of the Faculty of Commerce, the George Tully Trophy to Fencing three weapons champ T. Reid, the Col. Richard I. Cardozo Trophy to J. Polack as best fencing novice; the Dr. Harvey Cup to H. Welsford of Engineering and the Bronze Medal in Gymnastics to N. Thompson.

(Daily Photo by Murray-Robertson.)
McGill's great centre-ice star, **GORDIE KNUTSON**, has been awarded the Dr. Bobby Bell Trophy as the top hockey player on the senior team. Knutson is currently leading the Redmen in scoring with 17 points and the squad has one game left.

Knutson Awarded Bobby Bell Trophy

By IRWIN GUTTMAN
Gordie Knutson, out of Regina, Saskatchewan, has added another trophy to his already well-stacked mantle piece. Gord is the new holder of the Dr. Bobby Bell Memorial Trophy awarded annually to the hockey player adjudged most valuable to his team. The trophy is presented to the winner on a basis of the majority vote of the members of the Senior Redmen, and this year Gordie was the unanimous choice of Clan Campbell.

The trophy was donated at the end of last year by the Dental Graduates in honour of the late Dr. Bobby Bell, a dentist, and a great McGill coach. It is indeed fitting that last year's winner Charlie Sanderson is being succeeded by a dental student, in his third year at McGill.

Operating from centre position on a line with Bobby Marchessault and Brian O'Neill at left and right wings respectively, Gordie amassed ten goals and seven assists for a total of seventeen points to put him at the head of the team scorers.

Besides being the leading scorer, Gord was also used on power plays and to kill off penalties with either Bobby Marchessault or Brian O'Neill. To date, with one CIAU game left to play, the Blond Bullet has scored three winning goals, and one tying marker which permitted his team to go on from there to win. Considering that Clan Campbell has won four games and tied one in this years competition, it is indeed an impressive win.

But along with his hockey prowess, Gordie has that coveted faculty of being a natural leader, and an inspirational force to the rest of his team. Looked up to by every member of the team, Gord took all this in stride, and gave out with everything he had in each game. Knutson proved time and time again that he has plenty of heart to go along with his hockey ability. For example, take a certain Tuesday night, Feb. 6, 1951, at Quebec City. Gordie was suffering from the flu, and was feeling miserable, with an 103 fever, but instead of remaining in bed, Gord played the game, sparing nothing in his efforts and going all out.

To add to these impressive facts, Swivelling Knutson played upwards of 30 minutes each game, and in one tilt played over forty minutes.

A more deserving award could not have been made this year.

ry Forbes, and Laurie Robertson showed the way.

Howie Ryan's diversified intramural sport set-up produced thrills galore and provided a wealth of excitement for the student body in general. Dawson Engineers won the basketball title, with Ronnie Matthews, former Strathcona star and Dawson inter standout, spearheading the drive. Morty Resznetnik and Bruce Yamashita also played major roles in bringing glory to the Engineers.

Other top-notchers in the school cage league were George Tjello, Jules Blond, Skip Onesti, and Bob McLeod.

Moyle Boys swept floor hockey honors for the fourth straight year, led by their high-powered line of Bob Leslie, Bert Schremp and Al Dormer. The Paupers of Dentistry won the bowling tourney by beating Medicine in the finals. Commerce, Architecture and Phys. Ed. Seniors are the three teams left in the race for intramural hockey supremacy.

SPORTBRIEFS—If Norm Ashton loses his job, then Jet Robinson, Knutson, Dave Caldwell and all the others who did McGill proud this year, should get the gate. No sense kicking out just one good man. Might as well rid the school of all of them. Let's deviate from college sport for a brief moment.

There's a good deal of talk about the merits of Maurice (The Rocket) Richard and Gordie Howe. Those who favor the Detroit right winger point to his large point total as an indication of his superiority over the Canadiens' colorful star.

That's a lot of nonsense. If Richard was playing for the Detroit powerhouse, he's had many more points than Howe.

As it is, campaigning for a vastly inferior team which has half the scoring chances Detroit has, Richard leads him in goals.

Phys Eds, Commencemen, Plumbers In Hockey Hunt

The past year has seen a broad intramural sports program at McGill under the direction of Howie Ryan. At this point the activities have all but concluded for another year. The one exception is ice hockey.

With the playoffs in following the battle for the puck championship has resolved itself to a three cornered conflict. Two of these teams, Commerce and Phys. Eds, who with the Engineers, compose the aspirants for the title meet on Friday. In the following story we will attempt to analyze these two sextets.

Boasting a perfect record thus far this season — though they have participated in but three contests — the Phys Eds are out to repeat the victory of their confreres who carried off the honors last year. Looking at this team's roster and record — this possibility is quite a likely one.

Goaling for the Phys Eds is Larry Forbes while Ken 'Bronco' Wagner of football fame and track man Len Simmerman are rearguards.

One forward unit is composed of Bob Peart at centre between Bill Kelleher and Clare Tetford while Johnny Hall, John Baxter and Doug Cooke form another line.

Packing most of the offensive punch for the squad is rugged Bob Peart who will bear close watching. The Phys Eds played but two games during the regular season. They beat both the Arts and Science Panther and the

Meds and on Monday put on a dazzling scoring display as they eliminated Architecture 12-2.

Commerce however will be no pushover. The 'moneymen' boast the best goalie in the league in Ross Rubenstein who played for Westmount High School and the intermediate pucksters last season.

Fronting Rubenstein is a solid defence headed by footballer Haskell Blauer who showed with the senior Redmen for a spell last year, Bill Buzan and Simmie Berish.

Up front the Commencemen are strong too with such performers as Chli Heward, Bob Hall who played intermediate hockey for McGill last year, Irv Bookbinder, McGoubrie and Jamieson.

They have won four games and have lost but one — that to the Engineering Reds. With a well-balanced club they will definitely be a factor to be reckoned with.

C. U. P. Clippings

College Carleton's basketball team which competes in the Ottawa-St. Lawrence Conference is also competing in the playdowns leading to the Canadian Intermediate basketball championship.

Having won the Ottawa Intermediate City League title by defeating the Morrisburg Sailors, the Cards were at last report engaged in a two game total point series with Mines and Technical Surveys for the Ottawa Intermediate title. They had won the first game 44-41.

Another college team engaged in extra-curricular activity, namely the Queen's hockey Combines are not doing so well however as at last reports they were engaged in a grim game of hide and seek with the cellar in the O.H.A.

THE DEFENCE RESEARCH BOARD REQUIRES PHYSICS GRADUATES
The Defence Research Board requires graduates, for full-time employment in the following specialized fields of Physics:
**RADIO PHYSICS
ELECTRONICS
ENGINEERING PHYSICS
AERODYNAMICS**
These positions are for the Board's Laboratories located at Halifax, N.S., Valcartier, P.Q., Ottawa, Ont., and Esquimalt, B.C.
The initial salaries for applicants with Bachelor Degrees, will not be lower than \$2,760 per annum. Allowances will be made for those applicants having experience and additional academic qualifications.
Apply to: **DIRECTOR OF RESEARCH PERSONNEL, DEFENCE RESEARCH BOARD, DEPARTMENT OF NATIONAL DEFENCE, "A" BUILDING, OTTAWA, ONTARIO.**

Spotlight on Sport By Bob Bornstein

WINDING UP THE YEAR
All good things must come to an end. But the question is, was this year a good thing for Old McGill, sportively speaking? At first glance it would seem that the big prizes went elsewhere (to the University of Western Ontario) and that the Red and White was left holding the bag (second place in most cases).

But when the situation is viewed more closely, one discovers that McGill walked off with no less than thirteen championships. The list is a long one, but it's the type of thing one enjoys enumerating.

McGill won titles in intermediate track and field, senior track and field, badminton, fencing, soccer, rugby, gymnastics, intermediate football, swimming, wrestling, boxing (co-champions with Queen's), golf and squash. This is mighty impressive indeed, but the sad tale about McGill intercollegiate sport this season is the fact that in the publicized competitions, the laurels went to Toronto and Western.

Western Mustangs, the perennial football and basketball champs, came through again to win these all-important trophies. Toronto Varsity Blues annexed the hockey bunting for the third time in the last five years. So in the big doings, McGill wound up on the outside looking in. But it must be remembered that in football, Metras' Miracle Men won by a nose, and in basketball, the Redmen did manage to capture the MBL title. The only hockey consolation stems from McGill's victory over Toronto, the Blues only loss in college play.

U. of M. of course, swept to the provincial hockey title, but faltered in the CIAU race losing twice to Toronto in what may be considered one of the greatest upsets of the season. This double setback, a totally unexpected happening, shocked the student body at U. of M. to the depths. After two successive campaigns as kingpins, the Carabins were heralded as unbeatable, but that theory was blasted to shreds by the upstart Blues.

In individual performances, Pete (The Jet) Robinson, Dave Caldwell and Gordie Knutson led the field by a country mile. These three dominated their respective fields, with Caldwell in particular standing out. The latter was a football and basketball star and capped his performances by winning the Most Valuable Player Award in the MBL.

Irwin Kopin, the big butterfly ace of the swimming team, went through the season undefeated in the breaststroke event and was a tremendous factor in the success of Norm Ashton's great outfit.

Cec Findlay led the all-victorious inter football squad in the fall. Bernie Gordon sparked the fencing champions, Gordie Simpson, the badminton team, Jimmy Miller, Skeet Dorland and Lou Tannenbaum, the boxers, Bob Hall, the golfers, Ham and Red Quinn and Mike Brodeur, the squash team, Tak Fujimagara, Bob McLeod, and Mark Hatt, the wrestlers, Jack Nikolaidis, the soccer squad, and Jack (Porky) Griffin, Jack Valentine, Guy Guerin-Lajoie, Geoff Crain, Owen Owens and Don Smith were prominent in skiing.

The Quain boys, Paul Olivier, Mike Cain and Henri Dessaulles were well to the fore in tennis. George Kent, George Piper, Dave Race, Dunc McMillan, and Al Ramsay led the way in rugby. Skip Onesti, Don Walter, Joe Dickstein and Malcolm MacDonald starred in water polo. Mel Mikalachki, Harry Wipper, Pat Ross-Ross, Lefty Berger and Jim Lowe went well in intermediate basketball, and Len Shaw, Wally Eno, Tom Prevaille, and Jerry Ferguson were outstanding in inter hockey. By the way, Rocky Robillard's Braves lost the title to Loyola by a goal in the final game of the season.

In inter track, the big names were Mark Hatt, Ken Wagner and Ken Scott. Farrell Hyde, Tink Kyte, Dave Blair, Gordie Gilmour and Jet Robinson highlighted the senior track show-ins and in gymnastics, Hugh Wellsford, Nigel Thompson, Lar-

Septet Mix Studies and Flying

Air Force Reserve Activities Viewed

By DON ALLEN

St. Hubert, Que. — (Special) — Seven full-time McGill students, members of the 438 Fighter Squadron (City of Montreal) of the Royal Canadian Air Force (Reserve), are taking an active interest in Canada's Air Force while continuing their college education.

The septet, comprised of students from Medicine, Dentistry, Commerce and Engineering, devote one to two evenings each week to the Air Force and are on call for weekend assignments. We had the opportunity of meeting a number of this group here recently, seeing the

airport and the planes that they fly, and of becoming acquainted with many of the men of the 438 Squadron.

St. Hubert Airport was a beehive of activity when we arrived Saturday afternoon. Harvard trainers droned overhead, a fuel truck rushed across the field, and two Vampires chased each other down the runway, swished upwards, and in seconds were mere dots in the sky. Accompanied by F/L Gabriel Langlais, public relations officer for the Squadron, we headed for the mess hall where we met and talked with some of the McGill men of the 438.

McGill Men All
Seated around a table were F/L Dave Elkin, navigation officer, F/L Allan Walker, signals officer, F/O Les Wilson, radar officer, and S/L Peter Lecoq, second in command, all of Medicine III, and Ken Godwin, technical adjutant, of 4M Civil Engineering. Two other McGill men, Vic Bennet of Commerce IV and Doug Coupland of Dentistry III were out of town on an assignment, we were told.

The Squadron had been alerted for a rocket shooting exercise over Lake Ontario that was scheduled for last week-end. They had learned shortly before we arrived that unfavorable weather conditions over Trenton Air Force Base had meant that the exercise would be delayed several weeks. It was the second such delay. "Let's hope the third try will be lucky," laughed one of the pilots.

F/L Langlais, who had invited The Daily to watch the McGill men in action over Trenton, suggested that we look around St. Hubert Airport and see the training that the men were receiving.

After lunch we were shown the briefing room where we met more men of the 438. It was pointed out that the 438 was the French squadron of the R.C.A.F. but that the McGill men had joined it when there were no vacancies in the English (City of Westmount) squadron and the arrangement had proven entirely satisfactory.

At the briefing room we were introduced to S/L Guy Hackett, the "Flying Barrister" of the 438, who graduated from McGill in Law three years ago.

We were surprised to learn that radio stations are of special importance to these pilots. While commercial airlines often employ a dot-and-dash radio beam for direction finding, the 438 Squadron, we were told, prefers the signal from the transmitter of CBF. A large wall map indicates the frequency and the location of the transmitter of every commercial station in eastern Canada.

Laurentian "Flip"
We accepted the offer of a "flip" with the 438 and, after being fitted with parachute and helmet, experienced a perfect take-off as a flight of three Harvards left the runway

(Daily Photos by Murray-Robertson.)
McGILL MEN ALL, six members of the 438 (City of Montreal) Fighter Squadron, shown in the lower picture, beside an R.C.A.F. "Vampire" jet at St. Hubert Airport. From left to right, technical adjutant Ken Godwin, F/O Les Wilson, F/L Dave Elkin, S/L Guy Hackett, S/L Peter Lecoq, F/L Allan Walker. With the exception of Hackett who graduated in Law in 1948, all are continuing their University education at the present time. Two other McGill men, Vic Bennet and Doug Coupland are also members of the Squadron. In the lower picture two Harvard trainers of a flight of three of the 438 Squadron heading northward over the Laurentian foothills, as Daily photographer George Robertson and the writer are introduced to the Air Force life of seven McGill students.

and headed to the north. Mount Royal to the west, bridges, storage tanks, the black strip that is Sherbrooke street, and countless indistinguishable structures came into view on the landscape below. Bordeaux Jail, scattered settlements, then open country beyond.

Moments later: a panorama of black and white—hills black with countless thousands of evergreens; open fields and valleys scattered lines of fence-posts; lakes marked with bare trees, divided by dotted out by areas of unbroken white; and, occasionally, the winding black thread of a fast-flowing mountain stream — a Laurentian winter viewed from 3,000 feet.

Across the open fields and cutting a pathway through mountain forests, the ribbons of dark grey lined with dot-like fences: Highway 11

COMING EVENTS

- March 7**
CHORAL SOCIETY—Regular Practice, Time: 5 p.m. Place: Divinity Hall.
DUPLICATE BRIDGE CLUB—Annual Club Championships. Collegiate Open Pair Tournament for the Louis Quinze Trophy. Time: 7:30 p.m. Place: Grill Room, Union.
CAMERA CLUB—Election of officers for the next term will be held. A full quorum is required. Time: 1:20 p.m. to 1:40 p.m. Place: Union Ballroom.
GEOGRAPHY FILM SOCIETY—Travel to the South Pacific with the Society this week. Four films showing Melanesian and Polynesian native life are to be presented: "In the South Seas", "Isle of Bounty", "Moorea", "Samoa". All welcome. Bring your lunches and a dime. Placement Service

A statement released from the McGill Placement Service, yesterday says, "all students who are graduating this year and desire assistance in securing permanent employment are reminded that they should register with the Placement Service as soon as possible. This applies particularly to students proceeding to B.A. and B.Sc. degrees."

IRC to Hold Annual Elections of Officers

The International Relations Club announces that the annual election of officers for the coming year will take place on Friday, March 9, at 5 p.m. in the Club Room of the Union. An executive said that it would be the last meeting of the year and that all members were urged to attend.

Stymied—P. 2

assimilated, can he experiment to advantage, and the level of productions climb. But until then, we settle for the next best thing: making available that body of knowledge to the two hundred and fifty with a desire to learn.

You want to be in a production, but the older man, the one who can act a little better, gets the part. You whine, your disappointed brother whines; the whining mounts to a general wall, and the same people keep getting the parts and doing the productions. If you want to change this situation, get acquainted with the books now; feel them out, flip through the pages, know what there is to learn, and then when next year rolls around take them out and soak yourselves in them. You'll be doing yourselves and McGill both a favor. They've spent a lot of money so that you might learn. Take advantage of these books, says the Radio Workshop, make them your friends—they'll help you up more than "connections" with an army of producers.

Stymied—P. 2

Tetreault—P. 2

Dentistry (3rd and 4th year) in the Dental Clinic (M.G.H.); Law in Day Hall, before and after classes; Divinity in the Divinity Hall Common Room; Music in the Music Bldg.; Phys. Ed. in the gymnasium. In the same elections last year, which were held on March 1st, 3,328 students, approximately 55 per cent of those eligible cast their ballots.
